

## Proposal on changes of Bye-law 更新附例建議

Date 日期	7 Nov 2017
Proposer(s) 提議者	Cyril Leung
Subject 主題	Supplement the tie player policy in same division
Proposed changes 建議更新內容	<p>3.7.c If a player is coming to tie to a side and the club has more than one side in the same division, the player will tie to the side with most games played in that division. If the number of games played in that division are equal, the player will be tied to the side with last game played in that division.</p> <p>4.7.c If a player is coming to tie to a side and the club has more than one side in the same division, the player will tie to the side with most games played in that division. If the number of games played in that division are equal, the player will be tied to the side with last game played in that division.</p>
Background 背景	A loop hole in current system. If a club had both its A and B side in the same division, and a player played 1 game in B side and many games in A side. After reaching the tie limit, the player will be tied to B and cannot play for A side any more.
Benefits 好處	To set up a standard and fix the loop hole; To reduce overhead on special approval.
Process History 處理過程	Circulate to CoM members on 7 Nov 2017 <Approved in CoM on 4 Dec 2017>
Effective date 生效日期	<Triples League 2017>
